6. Features and functionality
7. Results and screenshot
8. Conclusion
9. Github link

PROBLEM STATEMENT

Students often struggle to showcase their skills, Project and achievements in a structured way a digital portfolio solves this by providing a Personalized platform for presenting ones academic and technical journey

PROJECT OVERVIEW

This project involves creating a customized portfolio website with a professional design. It highlights personal skill, project and contact information in an interactive and use friendly layout.

WHO ARE THE END USERS

Students (academic projects, resumes)
Job seekers (to share with recruiters)
Freelancers (to show clients)
Professional (to highlight experience and achievements)

TOOLS AND TECHNIQUEs

HTML: Structure (pages, sections)

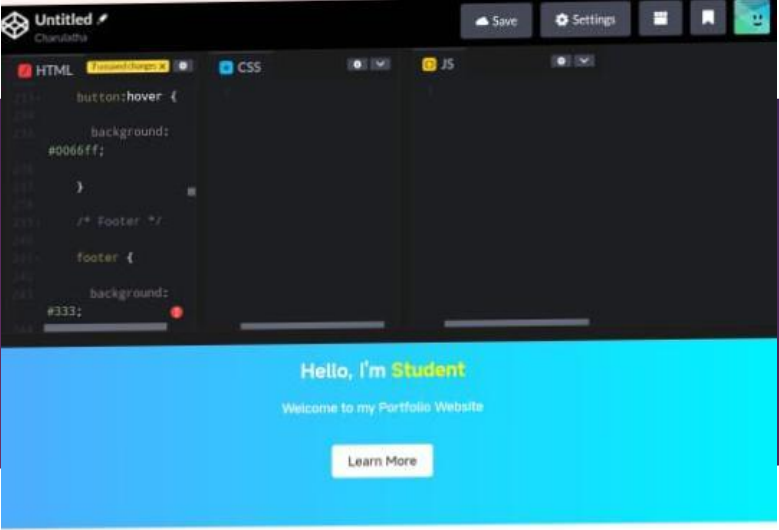

CSS: Styling (colors, layouts, responsiveness)

JAVASCRIPT: Interactivity(animataions, form validation)

Mention code editor (vs code)or codepen and hosting platform(GitHub page).

FEATURES AND FUNCTIONALITY

Responsive design for all devices.
Project showcase with images.
